

DESCRIPTION

The **GEFCO Select #EE-B56-4Series Slab Hanger** is a submersible light fixture adapter providing a wide angle (100 degrees included angle) flood light for low to medium height spray effects and waterfalls. The #EE-B56-4 Slab Hanger is flush mounted through a hole in a support structure and **CAN NOT** be moved after installation but can redirect the light source at the base of the spray effect. Angle of light adjustments are limited to 15 degrees off of vertical. The height of the light fixture **IS NOT** adjustable and is designed for shallow water levels of min. 2" deep. It fits all EE100 WET/DRY Series light fixtures

TYPICAL SPECIFICATIONS:

* **GEFCO Select #EE-B56-4** Slab Hanger:

- cast bronze housing, rock guard.
- fits ALL EE100 Series lights.

REPLACEMENT PARTS:

- None

IMPORTANT

The designers, installers and end users utilizing the electrical equipment described herein assume full responsibility for the compliance with the N.E.C and it's applicable articles, intents and consequences. Where the manufacturer and/or the supplier of the electrical equipment described herein does not control the application or usage, he assumes no responsibility whatsoever for any consequences arising out of the application, installation and/or usage of this or any other equipment and/or materials.

IMPORTANT INFORMATION

The NEC Article 680-51(D) requires that "electric equipment which depends on submersion for safe operation shall be protected against overheating by a low water cutoff or by other approved means when not submerged." Other approved means are either GEFCO #EE115-Series or #EE140-Series water level control devices.
