

DESCRIPTION

The **GEFCO Select #SE138-Series Swivel Union** provides a vertical adjustment of spray effects after installation. The union will enable a total of 30 degrees of adjustment to ensure that the spray effect attached will spray at a true 90 degree vertical. To adjust the tightening and loosening of the set bolts is required. For smaller degree of adjust ability use GEFCO Select #SE137-Series Adjustment Flanges.

The GEFCO Select #SE138-Series Swivel Union is constructed of bronze with stainless steel bolts. It is provided with one male threaded connection and one female connection. See the chart below for sizes.

When specifying, please use the following suffix to ensure the proper fitting is provided:
