

**DESCRIPTION**

The **GEFCO Select #EE112SST-Series Cord Seal** provides a watertight connection for underwater electrical cable to enter or leave GEFCO Select #EE 100 Series Submersible Junction Boxes or when used with GEFCO Select #EE119-Series Cord Seal Sleeve Fittings at the end of electrical conduit.

The GEFCO Select #EE112SST-Series Cord Seal is constructed of SST and fitted with neoprene glands for tight compression seal around cable. For brass versions please see GEFCO Select #EE112 Series.

When specifying, please use the following suffix as shown on the chart below to ensure that the proper fitting is supplied.

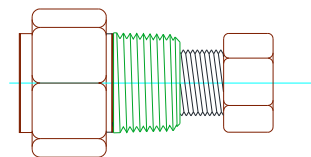

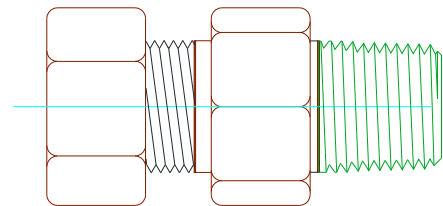

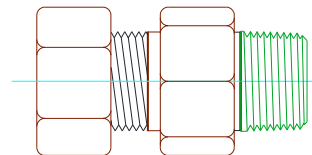

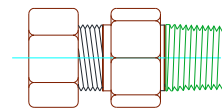

**TYPICAL SPECIFICATIONS:**

\* **GEFCO Select #EE112SS-XX** Electrical Cordseal:

- machined SST
- compression type neoprene gland.
- for cable size specified (see table).
- U.L. listed.
- slip washer.
- X" male N.P.T. connection.
