

**DESCRIPTION**

The **GEFCO Select #PE101 Vacuum Fitting** is placed in pool walls or floors providing an outlet connection for a vacuum hose while cleaning the pool. A base made of bronze with integral water stop flange is embedded into pool well below water level. The base possesses a 2" NPT connection at the pipe end and 2" NPS connection at the flange end. A removable 2" x 1-1/2" chrome plated brass plug/hose adapter has male threads for a tight seal. One fitting will accommodate approximately 35'-0" of vacuum hose. In larger pools, multiple fittings are recommended and should be placed 65'-0" on center. If multiple pools exist it is recommended that a vacuum fitting be placed in each pool.

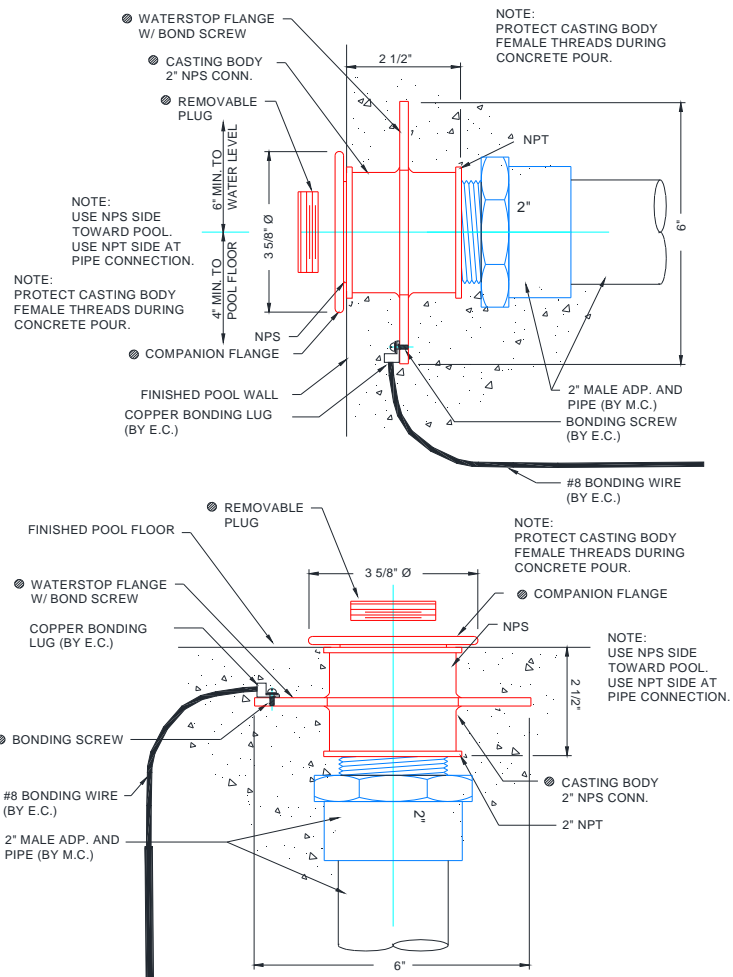

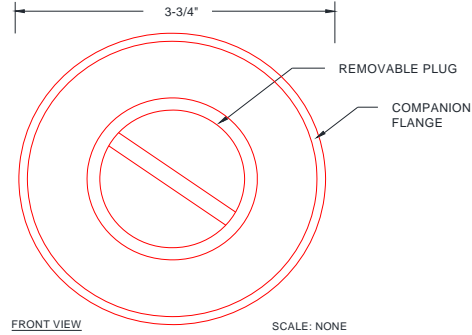

**TYPICAL SPECIFICATIONS:**

**\* GEFCO Select #PE101 Vacuum Fitting:**
