

**DESCRIPTION**

The **GEFCO #PE108C-XX SST ANTI VORTEX PLATE** provides dispersion of discharged water for water falls or bowls. This unit is available in various sizes: 12", 16", 18" or 24". This unit is provided with a 3/8" x 3/8" SST perimeter frame for tile set mounting and is equipped with 3/8" mounting holes.

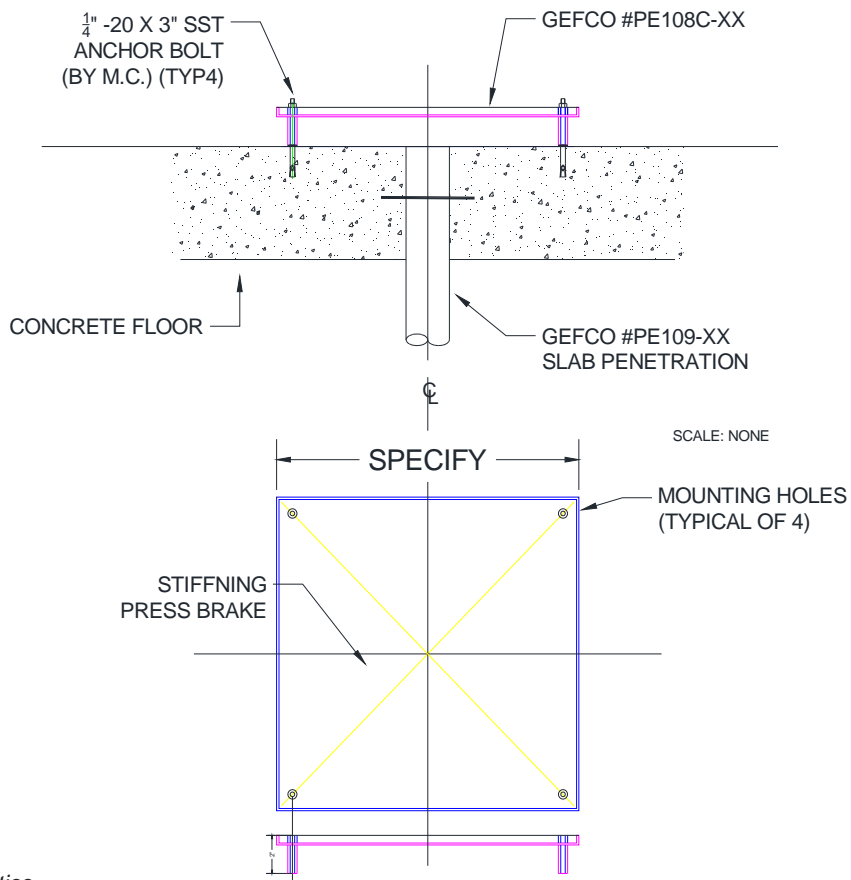

The unit is typically mounted following pool floor finishes complete. For preformed suction of discharge sumps specify **GEFCO #PE108 Series ABS** molded plastic sumps.

When specifying, please use the following suffix to ensure the proper version is provided:

**GEFCO #PE108C-XX**  
XX = 12", 18" or 24"
