

DESCRIPTION

The **GEFCO Select #SE847SP DECK MOUNTED Water Level Independent Aeration Jet** will produce a soft column of water similar to the GEFCO #SE112 and #SE142 Series Aeration Jets. The soft water of the Aeration Jet makes an aesthetic statement in both a daytime operation, or at night, when used in combination with any type of underwater illumination by Georgia Fountain Company. The "DMWLIA" -Jet must be connected to a bonding system per NEC Section 680. Bonding connection provided.

A GEFCO Select #SE847SP Series Jet has an eyeball type setting and is designed to correct the vertical adjustment of spray up to 5 degrees off of vertical.

The Aeration Jet can be installed flush with any play surface

ADDITIONAL INFORMATION:

* See column 'SS' in table below for strainer sizes recommended.
